abstract

This page describes the idea of the Homescreen.

The Homescreen is the first screen, presented to a user conecting to the myCar webinterface. It should present as much useabel information at a glance.

Elements

Following elements are planned for now.

Bluetooth

Basically this should inform whether a bluetooth controller is attached and powerd or not. If there are more then one, it will check if one of them is powered up. In case of no powered controller, element will be presented in red.

Ideas

- show all controllers including device name and MAC-Address
