

# abstract

The filesystem is mounted readonly to prevent damages due to poweroff and poweron. But there is a synchronous mounted Filesystem with a robust filesystem under /mnt/myCar which holds the variable data captured during operation.

## Filesystem paths

## application stack

The software could be found unter /opt/myCar. Additional there are some symlinks pointing to the correct destinations.

## Datarecording

/mnt/myCar/rec

## configuration

/mnt/myCar/etc

## Logfiles

/mnt/myCar/log
